

# Accelerate advanced products to market with assistance from leading national laboratories

Does your company need help developing and bringing **NEW** and **IMPROVED PRODUCTS** and **PROCESSES** to the clean energy market?

**IF SO**, the Department of Energy's Office of Energy Efficiency & Renewable Energy is putting the national labs at your fingertips and providing up to \$20 million in vouchers for eligible small businesses through 2016.

Companies can receive assistance in one or more technical areas:

- Advanced manufacturing
- Bioenergy
- Building technologies
- Fuel cells
- Geothermal power
- Solar power
- Water power
- Wind power
- Vehicles

## WHO SHOULD APPLY?

- For-profit businesses of less than 500 full-time employees world wide
- U.S. based and U.S. owned companies
- Companies who need specialized expertise and equipment only available at the national labs

## INTERESTED?

Contact your local MEP for assistance with applying: [www.nist.gov/mep](http://www.nist.gov/mep)

# Small Business Vouchers Pilot

## GROW YOUR BUSINESS
